

Kimmy the Koala Helps the Honey Bees

by Graham Swan

PRESS RELEASE

Educational and stylistic children's book about a group of animal friends joining up to save the bees in Summerdown Wood.

Kimmy the Koala loves few things more than honey, eating it for breakfast everyday during the summer months. When he asks the wise tree, Warewood, where his favorite treat comes from though, he is startled to learn the bees who produce the honey are struggling because of the weather. Now determined to help, he recruits Penny the Panda, Ronnie the Rat and his other forest pals to plant wild flowers throughout the woods to give them plenty of pollen to make honey with for the next year.

Originally written for his grandchildren, **Kimmy the Koala Helps the Honey Bees** by Graham Swan is the first book in his series chronicling the animal's adventures in Summerdown Wood. Cheerful and illustrated in an eye-catching, hand-drawn style, it will teach young readers the positive message of working together to achieve a goal and helping a friend who is in need. And after the story is finished, extra illustrations are included in the back so children can color in their new favorite characters.

About the author: Graham Swan has worked as a graphic designer in the UK and is currently a college lecturer in Fife, Scotland. He currently lives in Kirkcaldy, Fife, Scotland. This is his first published book. **Kimmy the Koala Helps the Honey Bees** by Graham Swan (published by Clink Street Publishing August 1st, 2017) will be available to purchase from online retailers including Amazon and to order from all good bookstores.
